Recovery is just as unique as you.

YOUR WORDS MATTER

Relapse is a part of the **recovery process**. It is not a sign of failure. Talk to loved ones about how to get back on track.

“

YOUR WORDS MATTER

Medication treatment for substance use disorder do **NOT** substitute one drug for another.

The length of time needed to use medical treatments varies for each individual.

YOUR WORDS MATTER

Identifying a substance use disorder may be difficult. Some common symptoms are rapid changes in behavior, irritability, social withdrawal, and an increase in frequency of substance use.
